

It is our great pleasure to invite you to participate in the upcoming 2nd General Meeting of the COST Action CA21101 (“COSY”), which is organized by the University of Wrocław, Poland on July 1-3, 2024.

In order to participate and/or present a poster it is necessary to register at <https://cost-cosy.eu/activity/the-second-cosy-general-meeting/>.

Conference is funded by COST Action “COSY” and there is **NO conference fee, but all participants need to have (or create) profile at the e-cost platform:**

<https://e-services.cost.eu/>, accept an e-COST invitation to the meeting within 2 weeks from receiving it, and sign the attendance list.

“COSY” is the acronym for “**Confined Molecular Systems: from the new generation of materials to the stars**”. The meeting is focused on the experimental and theoretical characterization of confined molecular systems, from those relevant in new materials research, to those playing a key role in astrochemistry. It is an opportunity for active networking between scientists with complementary and highly diverse expertise in confined molecular systems.

The meeting will take place in the HP Park Plaza hotel, Bolesława Drobniera 11-13, 50-257 Wrocław, Poland.
